Mission Support Planner

Supporting Constructive Simulations

Special Thanks/Who is Who

Special Thanks!

XVIII Corps; Mr. Frank Flowers (TOR), Mr. David Lame (ANTEON)
III Corps; Ms. Georgie McAteer (TOR), Mr. William Nance (TOR), Mr. Robert Lippard (ANTEON)

Program Developers, Maintainers,

Command Information Office (CIO) Ms. Enid Torres P.D.
Programmers; Mr. Dennis Connelly (Chief) Mr. Salvatore Urciuoli (Reports)

Administrators

Mr. James R. Cruthers (PD) PEOSTRI, Mr. Frank Lozito, ANTEON

Mission Support Planner

Supporting Constructive Simulations

Purpose of Planner

- Provide user a tool designed to better manage day to day activities while maintaining a record of activities that can be called up in a simple report format.
- Provide the user flexibility in the management of their workforce, and keep records on training, skill qualification, cross training, TDY, and a myriad of other associated tasks or activities.
- Request assistance for Major Exercises; search by Category, Skill, Sub Skill EG. Simulation, CBS, Trainer, Senior
- All simplified by dropdown menus and point and click technology to reduce manual entry errors.

Mission Support Planner

Supporting Constructive Simulations

Who Can Play

Anyone in the Government with a need, Site Leads (ANTEON), Designated Representatives (case by case).

Who Can Request HELP!

Any PEOSTRI PM-OPS-CT Supported Site that is currently supported by GSA Contract Number NG133904F1001 TO 808 (ANTEON Prime Contractor)

Mission Support Planner

Supporting Constructive Simulations

Help ???

No Problem. View-lets will be appearing at a computer near you. See example during hands on portion today.

Help Desk will be available M-F 0700 – 1800 EST.

One of the reasons we chose to work with CIO was the fact that help desk was available.

Mission Support Planner

Supporting Constructive Simulations

Planner Direction

1. Requests to date have included; Finance tools designed to auto-initiate RFR, OAWR & Cost Data.
2. These items require a link to various applications that are in some cases Government (DFAS) and in some cases proprietary.
3. Provide the customer the ability to brief a Commander requiring a type of exercise and the anticipated cost of support.
4. Automate and cut the paperwork war involved in attaining assistance.

WHEN

Available online 28 February 2005 for Testing (Help)

Online for all registered 1 April 2005 (Hopefully)

Mission Support Planner

Supporting Constructive Simulations

Access Request for OPS-C Mission Support Planner Sharepoint Website

External user access request procedure:
Provide the following information to your OPS-C Gov't sponsor, James.Cruthers@peostri.army.mil, who will forward it to the appropriate person in the CIO. Please allow 3-5 working days for response.
The following information is required.

- Name
- Phone
- Email address
- AKO email address (required)
- Sharepoint site individual needs access to (Mission Support Calendar)

You will receive a Message giving detailed information as to the MSP levels of access so that it may be determined what level of entry you would like to have.
Your Gov't sponsor must ensure you have been granted access permissions to the appropriate MSP Level.

Mission Support Planner

Supporting Constructive Simulations

Now for the Hands On

Mission Support Planner

Supporting Constructive Simulations

A Little Extra on the Mission Support Planner Brief and Demo

Actual Screen shots will be modified as requirements change. This briefing introduces the search and scheduling processes. Further instructions will be available as the system matures.

Site Managers (contractors) will have the most to do in the process. The largest part will be posting events to the calendar, keeping personnel data current and other tasks, however, Only Government Personnel (TOR/ATOR) can commit Personnel and Funding.

The benefit of the program is that all data recorded from an event can be called up in various report formats some are currently available, more to follow.

Bottom Line: You are my customer and the person that establishes my direction and the direction of the program.
